Ornamental Trees for Shade and Beauty

SCHWEDLERI MAPLE—One of our most valuable trees. Foliage and young shoots a bright crimson, which changes to purplish green as season advances. Good grower and hardy, far more attractive than the Norway Maple. 6-8 ft., \$1.50 each; 8-10, \$2.00 each.

PURPLE BEECH (Riversii)—The finest of all purple leaved trees. Handsome, symmetrical shape. Foliage is dark purple all the season. 5 ft. trees, \$2.00 each; \$17.50 per doz.

CUT-LEAVED WEEPING BIRCH—Makes a tall, slender, but vigorous growth. The most popular of the weeping trees. 5-6 ft., \$1.35 each; 10 for \$11.00.

JAPAN MAPLE (Atropureum Dissectum)—Very finely cut leaves, of dark purplish-red. 18-24 in., balled with earth, \$2.00 each.

JAPAN MAPLE (Atropureum)—Deep colored leaves not cut as finely as the "Dissectum." Very ornamental. Balled with earth, \$2.00 each.

MAGNOLIA (Soulangeana)—One of the most hardy, purple and white flowers. A great attraction to any lawn or street. 3-4 ft. trees well budded and balled with earth, \$3.00 each.

MAGNOLIA (Lenne)—Large, purplish-red flowers, very showy. Large foliage. A variety to be desired. 3-4 ft., balled and budded, \$3.00 each.

KOSTER'S BLUE SPRUCE—Our trees are grafted, making them of uniform color. This popular tree is one of the most beautiful and hardiest of all the spruces. Each tree balled with earth. 12-18 in., \$1.25 each; 18-24 in., \$2.00 each.

JAPAN WALNUT—An attractive shade and ornamental tree. Hardy, bears in from four to six years. Nuts are rich, clean and produced in large clusters. 5 ft. tree \$1.00; 2 ft., 35 cents.

Cannas

AUSTRIA—Large, yellow flowers.

KING HUMBERT—Brilliant orange-scarlet. Leaves are rich purple-bronze.

BEAUTE DE POITEVINE—Dark foliage, crimson flowers.

ITALIA—Rich, golden-yellow flowers, spotted with crimson.

QUEEN CHARLOTTE—Profuse bloomer; mottled orange and scarlet. Dormant roots, 15 cents each; \$1.00 per doz.; \$7.50 per 100, delivered.

Dahlias

Here is an old flower, but probably there is no other flower that has produced so many new varieties in so short a time as has the Dahlia in the last few seasons. Some of the productions are almost like a new flower.

Below are some of the more showy and attractive varieties. You will make no mistake in planting any of them. They cost more than the older kinds, but they will repay you well.

BLACK PRINCE—Handsome velvet-maroon, decorative dahlia, 10 cents each.

COUNTESS OF LONSDALE—Free bloomer, salmon-red, extra fine, cactus, 25 cents.

GEISHA—Peony-flowered, scarlet and gold with yellow center. Very large, 50 cents.

HAZER KIND—Lavender pink, Cactus, lavender pink, one of the most profuse bloomers of medium size and fine formed flowers, 10 cents.

LE GRAND MANITOU—Pale pink striped with reddish violet, long stems, decorative, 50 cents each.

MANITOU—A very large flower of bronze with a pink shading. Very desirable, decorative, 75 cents each.

MARGARET BOUCHON—Largest pink cactus dahlia known. Light pink shading to white in center. Always attractive, 75 cents each.

NEW CACTUS—Decorative and Peony flowered Dahlias.

PROF. MANSFIELD—Large variegated flower 6-8 inches in diameter. Tips are white with the body of the flower about parts yellow and rosy red, making it very popular. Decorative, 15 cents each.

Hardy Perennials, Vines and Grasses

ANEMONE is one of the best fall blooming perennials. From the first of September till hard frost it is a mass of long stemmed flowers. Single plants of the following kinds, 20 cents each; \$1.25 per doz.

WHIRLWIND—Double white.

QUEEN CHARLOTTE—Semi-double, pink.

ALBA—Single, white.

CHRYSANthemum—Hardy, 15 cents each; \$1.25 per doz.

Separate colors of red, white and yellow.

DAISY (Burbank's Alaska)—Large, pure white, 15 cents each; \$1.25 doz.

FUNKIA (Grandiflora)—Large, attractive leaves. Flowers pure white and very fragrant. 20 cents each; \$1.50 per doz.

IRIS (German)—Assorted colors of white, blue, yellow and lavender, 10 cents each; \$1.00 doz.

IRIS (Japan)—Large, flat flowers which are very different from the German Iris. They grow taller and begin to bloom about July first in a great variety of colors, shades and markings. As there is so much confusion over the Japanese names we have dropped them and keep the different varieties by numbers. Words cannot express the beauty and delicate markings of Japan Iris. 25 cents each. One plant each of 12 varieties, \$2.25.

LILIES CANDIDUM—The old-fashioned, pure white garden lily. One of the hardiest and best. Snow white with yellow stamens, fragrant. To do well **MUST** be planted in August or early September. 20 cents each; \$2.00 per doz.

TIGRINUM SPLENDENS—Single Tiger Lily, 12 cents each; \$1.25 doz.

TIGRINUM FLORE PLENE—Double Tiger Lily, produces a great number of bright orange flowers, 12 cents each; \$1.25 per doz.

Ornamental Grasses are very useful in connection with shrubbery and borders.

JAPONICA ZEBRINA grows from 5-7 ft.; the leaves are striped with yellow and the stalks are tipped with feathery plume of from 10 to 15 inches in length, making an attractive plant, 25 cents each; \$2.00 per doz.

JAPONICA ULALIA GRACILLIMA—Green, with a silvery white midrib, grows to three or four feet. 10 cents each, \$1.00 per doz.

RIBBON GRASS—Green leaves, striped with white, 1 1-2 to 2 ft., 10 cents each.

Climbing vines are excellent for porches and lattice work where shade is wanted. In fact we know of nothing better than the following:

HALL'S HONEYSUCKLE—Hardy, flowers white, turning to yellow with age, 2 year plants, 35 cents each; 3 for \$1.00.

ARISTOLOCHIA SIPHO (Dutchman's Pipe)—Large, heart shaped leaves. Strong growing, 2-3 ft. plants, 75 cents each; 3 for \$2.00.

CELMATIS PANICULATA—The best small flowering clematis. Quick grower, white, fragrant flowers, 3 year plants, 75 cents; 6 for \$2.50.

AMPELOPSIS VEITCHEI (Japan or Boston Ivy)—The popular vine for covering stone or brick work, walls, etc.. 2 year plants, 30 cents each; 6 for \$1.50; 3 year plants, 40 cents each; 6 for \$2.25.

6 Plants For The Garden

7 Suitable Ornamental Shrubs Indicate Progress

Roses on Their Own Roots

The Roses we grow have given our customers satisfaction and we would call attention to the varieties listed. Not a long list but a good one, containing the best of the new varieties. Every rose on its own root. You will never be troubled with wild sprouts starting on these plants.

Prices on all roses (except **Baby Rambler**), 1 year plants, 25 cents each; \$2.50 doz.; 2 year plants, 50 cents each; \$4.00 per doz.

BABY RAMBLERS—2 year, strong plants, 35 cents each; \$3.50 doz.; \$24 per 100. 12 2 year plants, our selection of three or more varieties, \$3.25 delivered.

TEA ROSES

ETOILE DE FRANCE—Deep red, handsome buds.

KAISERIN AUGUSTA VICTORIA—White, tinged with lemon yellow.

LA FRANCE—Pink.

HELEN GOOD—A favorite, pink tinged with yellow.

OLIVIA—Choice red bedding rose, large and profuse blooms.

PINK KILLARNEY—Fragrant, very handsome buds.

PINK MAMAN COCHET—Large, light pink, good grower.

PRESIDENT TAFT—One of the very best pinks, large and handsome.

RHEA REID—Large, double red flowers, free bloomer.

SUNBURST—The best yellow tea rose, large copper yellow and fragrant.

WHITE MAMAN COCHET—Buds snow white, handsome and very fragrant.

WHITE KILLARNEY—Buds tinged with pink, opens white, fragrant.

HARDY PERPETUALS

ANNE DE DIESBACH—Large size, showy bright clear pink.

CAPT. HAYWARD—Large deep crimson, profuse blooms, a fine rose.

CONRAD F. MEYER—Continuous bloomer, buds large and pointed. Flowers clear pink and fragrant are produced till snow comes. It is one of the strongest growers and makes a splendid hedge nearly dog proof.

By some it is called a Rugosa rose. Grows five or six feet in a season.

FRAU KARL DRUSCHKI—Snow white flowers, buds long and pointed, blooms till last of October. The best of all white roses.

PRINCE De ROHAN—Velvet, red, one of the darkest.

GEN. JACK—Dark crimson, an old favorite.

HARDY CLIMBING ROSES

AMERICAN PILLAR—A new rose producing large pink flowers in clusters. Rapid grower the foliage of this rose is in itself an ornament because of its deep glossy green.

CLIMBING AMERICAN BEAUTY—Same size, color and fragrance as the old American Beauty. Perfectly hardy and stands the drouth well. We have priced this rose same as any of the others.

CRIMSON RAMBLER—The popular red climber.

DOROTHY PERKINS—Double shell pink flowers produced in clusters. A fine climber.

FLOWERS OF FAIRFIELD—Brilliant, lasting red color, continues to bloom all the season.

WHITE DOROTHY PERKINS—Similar to the "Dorothy Perkins" in growth, but the color is pure white. Good grower and hardy.

BABY RAMBLERS

JESSIE—Bright red, continuous bloomer.

ANNE MULLER—Handsome flowers of bright pink, in great profusion.

CATHERINE ZIEMET—Very double white flowers in large clusters.

5 "Earth has no princelier flowers than Roses."

6 Plants For The Garden

Roses — Growing Plants

For several seasons we have delivered growing plants by mail about May 15th, and many of our customers have found these plants so satisfactory that they have discontinued purchasing one and two year old roses. Each plant has the earth remaining on the roots and is wrapped in wax paper. This method makes our plants superior to those that have the earth all removed to save postage.

You may expect more flowers for your money from these plants the first season than you would have from larger plants. The climbing roses and some of the Perpetuals will not flower much the first year.

TWELVE PLANTS (Unless marked with special price) \$1.20

Tea Roses

Etoile de France, velvet-red.	Mi-Lady, red.
Helen Good, pink tinged with yellow.	Mrs. Cornwallis West, rose pink.
Jonkheer L. Mock, pink.	Mrs. Aaron Ward, light yellow.
Killarney, pink.	Mme. Melaine Soupert, golden yellow.
K. A. Victoria, white.	Olivia, red.
La France, pink.	Pres. Taft, pink.
Sunburst, yellow.	Prince de Bulgarie, silvery pink.
Lady Hillingdon, yellow.	White Maman Cochet, white.
Maman Cochet, light pink.	White Killarney, white.

Hybrid Perpetuals

Annade Diesbach, pink.	Gen'l Jacqueminot, red.
Conrad F. Meyer, pink.	Capt. Hayward, red.
P. C. de Rohan, darkest red.	

Climbing Roses

American Pillar, pink.	Climbing Amer. Beauty, red.
Flowers of Fairfield, red.	

Baby Ramblers

Anna Muller, pink.	Catherine Ziemet, white.
Jessie, red.	

Three Specials 15 Cents Each

Frau Karl Druschki, white perpetual.
George Ahrends, pink (Pink Druschki)
His Majesty, deep, dark crimson.

Strawberry Plants

Nearly every one wants strawberries fresh from the vine. The shipment of berry plants was our first start in the Nursery trade. Our plants go into nearly every state. We sell plants for Spring Planting ONLY. Our stock of plants for this spring is fine, the past season being wet the roots made a good growth. We grow over thirty varieties that have been proven in most localities. We advise parties to order such plants as are a success in their region. The Fall Bearing varieties are attracting much attention the last year or two because of the novelty of having strawberries till snow falls. "The Superb" and "Progressive" are the best Fall Fruiting varieties.

The regular fruiting varieties contain such kinds as, Mitchel's Ea, Excelsior, Bubach, Senator Dunlap, Chesapeake, Ea. Ozark, Glen Mary, New York, Marshall, Wm. Belt, Gandy, Klondyke.

The Parcel Post system makes quick delivery of small orders and they arrive in good condition.

Prices, "Progressive" and "Superb," Doz. 50 cents. 100, \$2.00. All other kinds (25 or more of a kind), \$1.25 per 100.

JAPANESE

BLOOD-LEAVED MAPLE

[ACER SANGUINEUM]

Of dwarf habit and rounded form similar to the Dark Purple-Leaved below, from which it differs by being more deeply cut and of brighter color. It is a charming variety and is also hardy. This, with the one below, forms two of the most desirable small dark foliaged lawn trees that can be grown, and is a source of delight to all beholders.

DARK PURPLE-LEAVED JAPANESE MAPLE

[ACER ATROPURPUREUM]

Forms a handsome small tree. Foliage dark and deeply cut and very dense. The hardiest and best of the Japanese Maples. Indeed, it is one of the handsomest and most desirable small trees known.

WEDDING & CO. 100 ROCKSTER N. Y.

The Japanese Maples

THESE represent the very highest development of complex vivid beauty in hardy trees and shrubs. They are of dwarf habit, rarely growing over five to eight feet high, and during an experience covering more than fifteen years have proved perfectly hardy.

Few plants have given such universal satisfaction or been so widely planted as these charming Japanese Maples. They are adapted to almost any situation or arrangement, the blood-red or deep purple foliage contrasting beautifully with their surroundings, their compact regular growth making them the most useful of ornamental plants. As single specimens, in groups of three or more, or in large beds they are equally effective and desirable. A mass of them on a lawn is a sight to be remembered, making possible the permanent beds of color for which the landscape architect has so long sought in vain.

The whole class is destined to popularity unequalled by any other hardy trees or shrubs. As single specimens they possess a beauty and elegance that is indescribable, and for bordering groups of taller trees and shrubs or grown in tubs for house decoration they are equally fine.

These elegant little trees grow slowly, and the demand always equals the supply, so that prices remain high, but they are well worth the price even were it much higher. We would therefore advise that no one defer purchasing with the idea that the price will be lower in the near future.

JAPAN SNOWBALL

A Rare and Exceedingly Beautiful Species from Japan

The ordinary Snowball is one of the commonest of shrubs. There is hardly a garden in the country that has not one or more of it. Its large balls of white flowers are so pretty that it has been a shrub that everybody had to have. Pretty as it is, the Japanese is far superior. It needs no pruning, such as the other does, to make it a shapely shrub, but from the start it forms a bush of uniform outline. Then in its foliage it far excels the other. The leaves are entire, not ragged-looking, and have a plaited appearance, and are of a thick substance that high winds will not tear. The leaves are of a rich, dark-green velvety color, and they retain their color long after the foliage of everything else has turned brown and dropped off in the fall. But it is in its flowering that its high claim for favor is found. A more beautiful shrub does not exist. The leaves are arranged opposite each other all along the stems, and from the base of each leaf-stalk springs a ball of flowers. There are often as many as ten pairs of these, or twenty balls of beautiful white flowers, on a branch eighteen inches long. There is hardly a branch on the whole bush but what is full of blossoms, so that it is easy to conceive what a grand sight one of these plants is when full of bloom. These balls, as they expand, all face upward, so that a full view of their great beauty is always to be had.

It is one of the easiest shrubs to transplant, as it has a perfect mass of small fibrous roots.

It is a profitable plant for florists to have on their grounds, as its flowers always bring a good price when they are open in May. Over \$150 was realized from the sale of these blooms last spring from about 300 two-year-old plants.

To be a universal favorite, a shrub must be hardy, easily transplanted and grown, of good shape, and beautiful in leaf and flower, and all this the Japan Snowball is to the fullest extent.

UNITED LITHO. & PR. CO., BROOKLYN, N. Y. 1490

TWO OF THE FINEST GROWING SPIREAS

SPIREA

ANTHONY WATERER

A BEAUTIFUL variety of the Bumalda type, which it closely resembles, except the flowers are much darker, being a bright, rich crimson, a new and distinct color in Spireas. A dwarf grower, rarely attaining over two feet in height; spreading, forming a low, round bush, and bearing dense, flat heads of brilliant blooms in great profusion throughout the latter part of summer.

It has attracted great attention in England, where it was first introduced, and for the front of borders it has no superior.

We consider it one of the finest of recent introductions and recommend it to our patrons.

SPIREA VAN HOUTTEI

**The Grandest of the Spireas and one of the Most
Charming Flowering Shrubs**

GROWS from 3 to 5 feet, with arching branches so thickly set with clusters of white flowers as to often weigh them to the ground and resembling a snow-covered evergreen or a cascade of bloom. Beautiful as a single lawn specimen, for massing by itself or with other shrubs, or for a low ornamental hedge.

AN OBJECT OF GREAT BEAUTY AND PERFECTLY HARDY

Deciduous Flowering Shrubs

No home is complete without a good assortment of ornamental shrubs. A little thought in selecting varieties and in arranging the placing of them will add much to the appearance of any home.

ALTHEAS—A beautiful flowering shrub, noted for its long period of bloom. Flowers throughout August and September. We have fine stock in both bush and tree form. Double flowers in red, white and purple, 2 1-2 to 3 ft. bush, 50 cents. Tree, 4ft., \$1.00.

BARBERRY THUNBERGII—Valuable for hedges. Foliage a bright copper-red in Autumn, 18-24 in., 35 cents each. \$3.00 doz., \$17.00 per hundred.

DEUTZIA (Pride of Rochester)—Large, dbl. white flowers, 2-3 ft., 35 cents Ea.

DEUTZIA GRACILIS—Flowers pure white. 18 in. bush, 35 cents each.

FORSYTHIA—An early flowering shrub, producing brilliant yellow flowers before the leaves appear in the spring. 2 1-2—3 ft., 50 cents each.

FLOWERING ALMOND—A low growing shrub producing long sprays of round double flowers early in the summer, making a great show. Red, White and Pink colors. 2-1-2—3 ft. bushes, 50 cents each.

HYDRANGEA PAN. GRANDIFLORA—A well known shrub. Bush form, 2 ft., 35 cents each. \$3.00 doz. 18-24 in., 30 cents each. \$2.50 doz., 4 ft. tree, \$1.00 each.

SNOWBALL, JAPAN (Virbunum Plicatum)—One of the most valuable June flowering shrubs. Handsome foliage and whiter flowers than on the common Snowball. 2—2 1-2 ft., 50 cents each.

SNOWBALL (Virbunum Tomentusom)—A single form of the Japan Snowball. Flowers with the greatest of profusion early in June. Pure white. Perfectly hardy and vigorous. 2 ft., 50 cents each. \$5.00 per doz.

LILACS—We are offering one of the best lots of Lilacs for 1916 that we ever grew. Plants are well budded and promise to flower profusely this season. Plants average 2 ft. and are bushy. Following are some of the best French varieties:

ALBA GRANDIFLORA—Large, pure white trusses, single, 50 cents each; \$5.00 doz.

CHAS. X.—Redish-purple, single. Large loose trusses, 50 cents Ea.; \$5.00 doz.

MARIE LEGRAYE—Single. One of the best whites. Large. 75 cents each; \$7.00 doz.

CONGO—Single. Choice variety, large wine-red flowers. 75 cents each; \$7.00 per doz.

PRES. GREVY—Double. Beautiful large flowers produced in extra long panicles. 75 cents each; \$7.00 per doz.

S. D. L. SPAETH—Single, long truss, large individual flower of dark purplish-red. 50 cents each; \$5.00 per doz.

TOUSSANT L'OVERTURE—Single, very dark flower, large truss and profuse bloomer. Extra fine. 75 cents each; \$7.00 per doz.

WEIGELIA, CANDIDA—Pure white, 2—3 ft., 50 cents each; \$3.50 per doz.

WEIGELIA, EVA RATKA—Brilliant crimson. 50 cents each; \$3.50 per doz.

WEIGELIA, NANA FOLIS VARIGATA—Dwarf, silvery variegated leaves. One of the best variegated shrubs. 18 in., 35 cents.

SPIREA, VAN HOUTTEI—One of the best known and popular shrubs, produces an abundance of showy white flowers. Very fine for hedges, massing or borders. 3—4 ft., 50 cents each; \$3.50 doz.; 2—3 ft. 40 cents each.

SPIREA THUNBERGII—A symmetrical, low growing bush, having narrow leaves of handsome, light green. Small white flower about ten days earlier than Spirea Van Houttei. 2 ft., 50 cents each.

SNOWBERRY—Medium growing bush with small pink flowers, having white wax-like berries that hang till early winter. 2—3 ft., 40 cents.

INDIAN CURRANT (Coral berry)—A pretty, graceful shrub, small foliage and flowers. Attractive redish-purple fruit that hangs on all winter. 2 ft., 40 cents; \$3.00 per doz.

MAHONIA, AQUIFOLIA—A beautiful, low growing shrub. Bright, purplish shiny leaves with prickly edges. Plant keeps green all the year. 18 in., 50 cents; \$5.00 per doz.

MAHONIA JAPONICA—A larger leafed plant than the above. Both varieties are very useful for decorating and cemetery work. 12-18 in., 50 cents

THE SERVICE YOU GET WHEN YOU BUY SHRUBS FROM THE GROWER

He is the one—the Grower—who has a reputation to keep. He KNOWS about the stock he sells, how it Grew and what it is. He is going to STAY AT ONE PLACE. You can find him there and if there is anything you want to know about, what to plant, or what you have planted, he is glad to help you.

Why Not Take Advantage of These Facts and Buy of THE GROWER?

That Agent you bought trees from last year did not Grow them. He Sold Trees For Money. You may never see him again, or could not find him if you wished. When you buy of the Grower you have a copy of your letter and his reply. And YOU KNOW WHERE YOU WILL FIND HIM NEXT TIME.

L. J. BRYANT & SON
